

Physical Significance

$$\begin{bmatrix} \tau_{xx} & \tau_{yx} \\ \tau_{xy} & \tau_{yy} \end{bmatrix} = \begin{bmatrix} \tau_{xx} & \tau_{xy} \\ \tau_{yx} & \tau_{yy} \end{bmatrix}^T$$

It can be proved easily

$$\therefore [\tau] = [\tau]^T$$

$$\left. \begin{array}{l} \tau_{xy} = \tau_{yx} \\ \tau_{yx} = \tau_{xy} \end{array} \right\} \xrightarrow{\text{DIY}} \text{Assignment 1}$$
